It is to be aware, All India Council for Technical Education has been mandated under the AICTE Act, 1987 to maintain the standards with regard to technical education in the country. In exercise of this mandate, the Council insists on fulfillment of the minimum requirements prescribed for imparting technical education by the institution. The Council also undertakes an annual inspection of the institutions and conveys deficiencies to them for rectification.

It has been observed however that notwithstanding the Council's repeated advice to comply with minimum norms, many institutions continue to be complacent about taking steps to remedy the deficiencies. Such institutions have several deficiencies of faculty and other requirements. Feedback of students with regard to quality of education in these institutions has evoked grave concern. The Expert Committees, following holistic appraisal during the year 2004-05 also pointed out severe shortcomings in key areas.

The institution has several deficiencies, which are listed in Annexure-A for your perusal. These deficiencies have rendered the institution liable for strict punitive action. However, the Council has decided to take a lenient view and put only the institution on a probationary basis. The approved intake for the year 2005-06 in respect of DHANESHWAR RATH INSTT.
